Tailored Flexible Solutions

Service Process

The **GarageSmart®** process is a no-obligation, hassle-free, in-home service. In consultation with you, we design, deliver and install a tailored **GarageSmart®** solution that meets your requirements and expectations.

Your **GarageSmart®** solution can be complete in 3 easy steps:

STEP 1: Call or Enquire Online

During our first phone call we will ask you to briefly to describe your garage area, along with your storage requirements. We will then arrange with you a convenient time for one of our consultants to meet with you in your home.

STEP 2: Visit

During this typically one hour consultation, our **GarageSmart®** consultant will discuss your needs and requirements, then design a tailored solution and provide you with a quotation on the spot. When you are ready to proceed, we will schedule the installation of your **GarageSmart®** solution at a time convenient to you.

STEP 3: Install Your New System

Your experienced **GarageSmart®** installation field team are fully briefed on your solution prior to their arrival at your home. Your installation is completed professionally and in a timely manner with minimum inconvenience to you. The field team will spend time with you post installation, to assist with helping you store your items away neat and tidy.
