GarageSmart® Service Process

At **GarageSmart®** we believe in a place for everything and everything in its place. We work with you to deliver a tailored storage solution so you can reclaim your garage space.

Whether it's bikes, sporting equipment, gardening tools, suitcases or storage tubs that need to be stored more efficiently, we can help! **GarageSmart®** is a complete "do-it-for-you" full service offering, where we will tailor a storage solution for whatever lifestyle you lead.

The **GarageSmart®** process is a non-obligation, hassle free in-home service. In consultation with you, we design, deliver and install a tailored **GarageSmart®** solution that meets your requirements and expectations.

Your **GarageSmart®** solution can be completed in three easy steps:

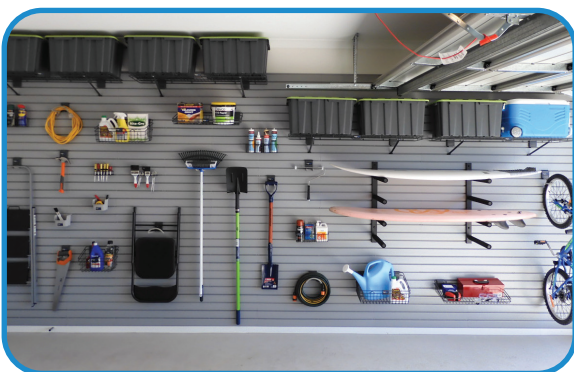

STEP 1: Call or Enquire Online

During our first phone call, we will ask you to briefly describe your garage area, along with your storage requirements. We will then arrange with you a convenient time for one of our consultants to meet with you in your home.

STEP 2: Visit

During this typically one-hour consultation, our **GarageSmart®** consultant will discuss your needs and requirements, then design a tailored solution and provide you with a quotation on the spot. When you are ready to proceed, we will schedule the installation of your **GarageSmart®** solution at a time convenient to you.

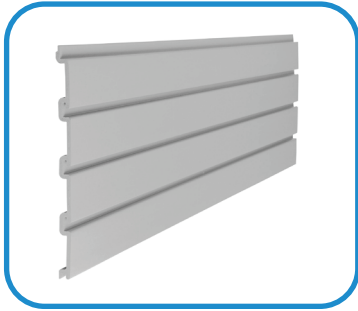

STEP 3: Install Your New System

Your experienced **GarageSmart®** installation field team are fully briefed on your solution prior to their arrival at your home. Your installation is completed professionally and in a timely manner with minimum inconvenience to you. The field team will spend time with you post installation, to assist with helping you store your items away, neat and tidy.

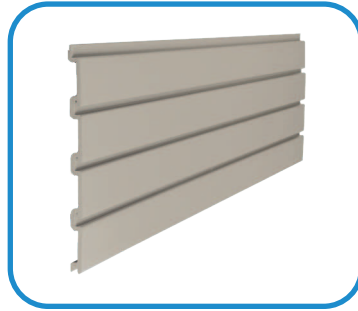

GarageSmart® SmartWall System

GarageSmart® SmartWall provides the backbone for your garage storage solution which enables your baskets, hooks, shelves and accessories to engage easily onto your SmartWall System.

The unique benefit of the **GarageSmart®** SmartWall System is that it provides you with the versatility to organise, reorganise and adjust your garage storage solution as often as you require.

IOPO

Institute of Professional Organisers

GarageSmart® is a member of The Institute of Professional Organisers, the International industry body. Across almost two decades, GarageSmart®'s tailored storage solutions have transformed thousands of cluttered, dysfunctional and unorganised garages.

GarageSmart® Car Pod & Surfboard Racks

GarageSmart® Car pod & Surfboard racks can be retrofitted onto all wall substrates including your GarageSmart® SmartWall system. All support arms are lined with a foam non-slip and scratch resistant membrane, to ensure your items are not damaged when in the process of getting them up or down off the racks.

GarageSmart® Car pod & Surfboard Racks are made from sturdy steel and are the perfect solution for storing Car pods or multiple surfboards.

Car-Pod Racks
